CENTRAL AMERICAN MATTERS.

Grand Army Proceedings at Boston To-Day.

A Reported Labor Riot Near Birmingham, Ala.

The Vanderbilt R. R. Strike.

By Associated Press.]

CLEVELAND, Aug. 14.—The Associated Press dispatches from Albany yesterday stated that it was reported that Grand Master Sargeant had ordered out the New York Central firemen. Sargeant, who arrived here this morning from Terre Haute, was intercepted by an Associated Press reporter, and when told he was expected in Cleveland to arbitrate the strike question on the New York Central, he said:

"I have come to Cleveland to meet a committee of our men from Youngstown to consider the question of business relative to a convention. My trip has nothing to do with the strike on the New York Central."

Grand Master P. M. Arthur of the Brotherhood of Engineers, is also here and both are stopping at the same hotel. This seems significant.

ALBANY, Aug. 14.—General Manager Young of the Delaware & Hudson this morning said: "Nearly all the men who were out have reported for duty. They said, however, they could not go to work until they received orders from their committee, which is in consultation with the leaders of the Central strike. Unless they go to work at noon their places will be filled by other employees of the company now on the way here from various points along the road. The employees of the Delaware & Hudson are only organized between here and Troy and there are no fears of a general tie-up."

NEW YORK, Aug. 14.—Vice President Webb of the New York Central said this morning that the only delay incident to the strike was at East Albany. Webb did not put much faith in the rumor that the firemen will be called out, and the strike on the Delaware & Hudson he regarded as a small matter, easily settled.

The local assembly of the Knights of Labor of Dover Plains denied to-day the truth of the report that the assembly had disbanded. Lee affirmed today that everything is progressing satisfactorily and that the men are as determined as ever.

BUFFALO, Aug. 14.—The Knights of Labor held a session here this afternoon and state that by to-morrow noon the Central will find out that the strike is not over. The walls of the Central depot bear a lot of freshly made signs similar to those that appeared the night before the strike. A general meeting is called for to-night.

ALBANY, Aug. 14.—Two hundred of Pinkerton's men, part of them armed with Winchester rifles, took possession of the West Albany freight yards this morning. New hands in sufficient numbers to operate the yards went to work to move the freight. No violence is anticipated.

CLEVELAND, Aug. 14.—P. M. Arthur Chief of the Brotherhood of Locomotive Engineers, says positively his organization is not to take any part whatever in the strike and does not believe the firemen will either.

Congressional Proceedings.

By Associated Press.]

WASHINGTON, Aug. 14.—In the Senate to-day the Tariff bill was taken up, the pending question being Vest's amendment to reduce the duty on tin-plate.

Mitchell addressed the Senate in defense of the high protective system as the policy to which the Republican party stands committed.

HOUSE.

The first business in order was a vote on sustaining the decision of the Chair in overruling the point of order made by Springer of Illinois that the Nathaniel McKay Relief bill must be considered in Committee of the Whole. The decision was sustained—yeas 114, nays 31, the Speaker counting a quorum.

The House then resumed the consideration of the Nathaniel McKay bill.

O'Neill of Pennsylvania to-day reported to the House the Senate concurrent resolution requesting the President to convey to the widow of General Grant the desire of Congress that the remains of General Grant be removed to the Arlington National Cemetery. The Committee on Library, from which it was reported favorably, said that it is a simple expression of the universal wish of the people of the United States.

To-Day's Races.

By Associated Press.]

SARATOGA, Aug. 14.—In the first race of five furlongs Lady Pulsifer won, objection second and Ocyeteth third. Time, 1:02 3/4.

In the second race for the Tennessee stakes, three-fourths of a mile, Monterey won, Valters second and Bertha Campbell third. Time, 1:16 3/4.

In the third race of one mile Clio won, Allan Bane second and Mrs. Denett third. Time, 1:44 3/4.

In the fourth race of a mile and a half Lavinia Belle won, Los Angeles second and Flood Tide third. Time, 2:27.

In the fifth race of a mile and seven yards Dyer won, Corticell second and Satisfaction third. Time, 1:48 3/4.

Pleading for His Sect.

By Associated Press.]

OTTAWA, Aug. 14.—Charles O. Card, son-in-law of Brigham Young, and leader of the Mormon colony in Alberta, N. W. T., has written to the Ottawa daily papers about the Mormons in the Northwest. He ignores the question of polygamy altogether, but pleads that his people are peaceable and industrious, and that no obstacles should be thrown in their way to develop the resources of the Canadian Northwest.

A Reported Labor Riot.

By Associated Press.]

BIRMINGHAM (Ala.), Aug. 14.—Late last night a Deputy Sheriff of Shelby county came to town in quest of special officers, and reports a terrible state of affairs in the neighboring counties and at the Shelby Iron Works. He says a great riot has been going on all the week at the iron works, and that three men and one woman have been killed in the melee. The negro laborers about the camp are in a revolt.

Central American Affairs.

By Associated Press.]

CITY OF MEXICO, Aug. 14.—Smallpox is causing many deaths in the Guatemalan army on the Salvadorian frontier. It appears difficult to arrange a peace between Guatemala and San Salvador, as Minzer, the American Minister to Guatemala, will not act in accord with the rest of the diplomatic corps.

Federal Nominations.

By Associated Press.]

WASHINGTON, Aug. 14.—The President sent to the Senate the nominations of Abraham X. Parker of New York for Assistant Attorney General, as provided by the act of July 11, 1890, and Samuel W. Allebaugh for Postmaster at White Sulphur Springs, Montana.

A Devastating Flood.

California Nominations.

Special to the GAZETTE.]

SACRAMENTO, Aug. 14.—The First Railroad District Convention, comprising the northern counties, met in the Assembly Chamber this morning. J. F. Ellison of Tehama was elected Chairman and J. M. Manning of Mendocino Secretary. Elwood Bruner nominated William Beckman of Sacramento for Railroad Commissioner, and Tuttle of Placer nominated J. M. Fulweiler of that county. The ballot resulted—Beckman 126, Fulweiler 74. Beckman's nomination was made unanimous, and the Convention adjourned.

The Third Railroad District Convention also met in the Assembly Chamber. F. Adams of San Luis Obispo was elected Chairman and E. J. Niles of Los Angeles Secretary. J. W. Rea, the present Railroad Commissioner, was renominated by acclamation, and the Convention adjourned.

The Second Railroad District, the First District Board of Equalization and the Fourth Congressional District Convention met in the Supreme Court rooms. Reuben E. Lloyd was elected Chairman and A. Ruef Secretary. The Convention adjourned to meet in San Francisco at the call of the Chairman.

The Second Congressional District Convention met in the Supreme Court Chamber this morning. J. F. Kidder of Nevada county was elected Chairman and Leviniski of San Joaquin Secretary. John Eagan of Amador nominated George G. Blanchard of El Dorado for Congress. The nominations closed, and Blanchard was nominated by acclamation, after which the Convention adjourned.

In the third Congressional District Convention, W. R. Davis of Alameda presiding, Joseph McKenna was renominated for Congress by acclamation. The Convention nominated J. J. DeHaven for Associate Justice of the Supreme Court (short term), E. G. Waite for Secretary of State, and E. H. Colsan of Sonoma for State Controller. A recess was then taken until 2 p. m.

The Sixth Congressional District Convention will meet at Fresno on August 26th. The candidates are Rowell of Fresno, Hwey Lindley of Los Angeles and Senator Bowers of San Diego.

It has been decided to hold the Fifth Congressional District Convention in San Jose, but the date has not been fixed.

Grand Army Proceedings.

By Associated Press.]

BOSTON, Aug. 14.—The Grand Army Encampment was called to order at 11 a. m. Past Commander-in-Chief Merrill presented the report of the pension committee, which was adopted with a vote of thanks. General Sherman then in a feeling address presented a beautiful candelabra clock and mantle ornaments to Comrade Warner, who eloquently responded. The presentation was made in behalf of the National Encampment.

A committee of the Woman's Relief Corps was then presented, and after an exchange of courtesies, retired.

The committee on changes in the rules presented a report, recommending various changes. The minority report was in favor of the adoption of a resolution providing for the substitution of the old ritual for the present one. Adopted.

The committee reported adversely on the proposition to change the rules so that hereafter past department commanders shall not be entitled to a seat in the National Encampment. Adopted.

A Democratic Convention.

By Associated Press.]

OCALA (Fla.), Aug. 14.—The Democratic State Convention met yesterday, and ex-Governor W. B. Bloxham was nominated for Comptroller and ex-Lieutenant-Governor M. H. Babray for Justice of the Supreme Court.

By Cable and Associated Press.]

LONDON, Aug. 14.—At Mecca to-day the deaths from cholera were forty less than on Tuesday, and at Jeddah the roll shows a decrease of ten.

An Indian Territory Election.

By Associated Press.]

WYNWOOD (Ind. Ter.), Aug. 14.—A runner who arrived early this morning, after traveling 50 miles from Stonewall, reports that a row was narrowly averted at that place and that hostilities are only prevented by the superior forces at the command of Governor Byrd, who has so over-awed the disfranchised whites that, after some display of arms, they prudently withdrew. Stonewall was the largest voting place, and was the center of interest in the election.

Both candidates for Governor, Sam Paul and Wm. Byrd, were at the polls all day. Each had a large number at his back. Paul's supporters were the disfranchised whites, while the full-bloods and most of the half-breeds were for Byrd. The latter also had the militia under his pay.

Everybody was heavily armed, and when the polls opened matters looked serious. Governor Byrd brought the militia about the polls, forming a circle about it.

The first squaw man was refused the privilege of voting and retired. The whites gathered their forces, and a time it looked as if they meant battle, but Byrd with his militia stood firm, and the whites, seeing they would be worsted in a fight, left, and Byrd and his militia ran things to suit themselves, and even prevented Indians from voting whom they knew were for Paul.

The result was: Byrd, 106; Paul, 6, and Burris (Independent) 15. Enough is known to assure Byrd's election and the success of the so-called Indian party, but the election is bound to be contested.

Burning Whisky.

By Associated Press.]

LOUISVILLE (Ky.), Aug. 14.—Twenty-five thousand barrels of burning whisky at the Kentucky distillery today caused one of the most disastrous fires that ever visited Louisville. A rough estimate made at noon, while the flames were still roaring furiously, placed the total loss a fully \$800,000. The flames caught from a lamp to a leaking whisky barrel.

The distillery property consisted of an immense distillery containing machinery for manufacturing whisky, extending back from the street 250 feet, and three stories high. Adjoining it were two large warehouses, where were stored 25,000 barrels of whisky. All was totally consumed. Fully insured.

The Democratic Convention of South Carolina, which met yesterday, broke up in a row to-day, the delegates from Charleston, Sumpter, Beaufort and other places withdrawing in a body.

Better Than a Beet Ranch.

There could not be a better time for making arrangements to store water than the present. A State election is upon us and a fine opportunity is offered those whose interests it is to offer themselves as sacrificers on the public altar, to prove, by donating their means, their anxiety to improve the public domain, and aid in producing water for irrigating purposes. U. S. Senator Jones stands always ready to advance the interests of the State as fully represents, and did but the Board of Trade but donate that ten or twenty thousand dollars would be thankfully received, there is no doubt as to immediate action being taken.

Well, do tell! At last, then, you have awakened to the necessity of doing something. If you will excuse us for making the remark, we will say that ten or twenty thousand dollars is hardly enough for Senator Jones to put into an irrigation fund, for money invested in that way is safer than in a bank and will return ten dollars for every one invested. We do not want to be understood as asking Senator Jones to give anything to the State. All we ask is that he make an investment of a small percentage of the money Nevada has poured into his lap in a well-defined, judicious, irrigation enterprise that he can see where he is going to get his money back two for one. The Carson, Walker, Humboldt and Truckee all offer to capital due inducements, and as the Senator has a large surplus that is seeking investment in other places, let him stop here and examine our resources, and in that way assist in bridging Nevada over the chasm while passing from the mining to the agricultural era.

SENATOR JOHN P. JONES has been out of the State considerable of the time during the last seventeen years. His legislative duties have called him to Washington most of the time, and unlike one of Nevada's former Senators, he has not put in a week in the Senate and passed the rest of his time in San Francisco. But, though Mr. Jones was absent, his home at Gold Hill was always occupied by some members of his family, and in good times and poor his hospitable doors have ever been wide open.—*Journal*.

This is probably true, but has Senator Jones attended to anything but mining in this State? Has he invested the proceeds of his mines in this State? Mining is a good thing, but not the only thing. The permanent development of this State must be in other lines. Senator Jones has large wealth. He has the means to aid this development without losing a dollar. Will he do so? We talk about the future, not the past.

It is announced that penny papers are to be started in the principal Eastern cities to create a boom for Cleveland. Will this "little one for a cent" undertake the task of reconciling the ex-President's known gold-bug policy with the declarations of the Democracy in favor of the free coinage of silver?

The above, from the San Francisco Bulletin, shows that the editor of that paper has not read either the Silver State or the Elko Independent, or he would not have propounded such an interrogatory.

The machine had to go to the wall in California yesterday, and Markham was nominated for Governor on the first ballot. Possibly Nevada may profit by California's experience and abandon the machine and give the people a chance for their life and liberty. The bosses had better stop and think before they go too far, for the people have at least got their eyes open.

In 1867 the debt of the United States was thirty-three times and the interest account thirty-one times that of Canada. In 1889 the debt of this country was only four times and the interest account only three and a half times that of Canada. This is a comparison which is more gratifying to Americans than to Canadians.

The venerable Bourbon of the Silver State proves the soundness of his Democracy by indulging in such standard epithets as "liar." As a rule, it is only when people are conscious of having been justly criticized they indulge in such arguments (?) as the above.

The edict has gone forth, and the independent (?) press of Nevada is waking up.

THE LAUGHING PLANT.

A Bean That Makes People Cut the Most Fantastic Capers.

I made some passing remarks the other day on the kols nut and other vegetables of magic. But, it possible, even more desirable and delightful is this "laughing plant." Not that the vegetable itself laughs, it does not even smile, but its seeds, if eaten, incite to immoderate mirthfulness. It is described as bearing flowers of a bright yellow, and soft and woolly seed-pods, in which are inclosed small black beans. The natives of "that part of Arabia in which the plant grows" dry and pulverize these beans, and if this powder is administered "it makes the soberest person behave like a circus clown, for he will laugh, dance, sing and cut the most fantastic capers. The effect lasts about an hour, at the end of which the 'patient' recovers his normal gravity, and is altogether oblivious of his extraordinary conduct when under the influence of the powder."

Dr. Johnson had a laugh like a rhinoceros, supposing rhinoceroses to commit themselves to mirth; and Lister, were it not for his uncontrollable fits of contagious hilarity, might have been immortal as a tragedian. But he could not keep his face serious than little boys in school when they are once "set off." Something of the same irresponsible risibility would be the common condition of society if the plant we are referring to ever comes into general use. It would be an innocent sort of opium, relieving the weary and the wretched from their thoughts, and no one need be dull. All alone, the hypochondriac might make himself the best of company, and without another soul in the room might pass his evenings as merrily as if he had got Grimaldi with him or Theodore Hook. What fun it would be at small desolate railway stations to watch the bright faces of the passengers "waiting for the train," and how it would brighten a country walk if every tramp who went by looked as if he had just been told a capital joke, and could not get it out of his head! No school boys would creep like snails unwillingly to school; on the contrary, they would hop, skip and jump all the way, and whistle as they went. It is a delightful prospect, and the sooner the Arabians begin exporting the jovial beans the better, if only for the use of Parliament. We have had enough of grumbling, obstruction and ill-temper; let us try legislation by laughter.—*London Times*.

PLOWING WITH STICKS.

The Primitive Way Peruvians Employ to Tickle the Earth.

It would make an honest American farmer smile out loud to see the way the land is plowed by Peruvians. From six to a dozen teams of oxen are put at work in a field of twenty or thirty acres. The oxen are yoked by tying a heavy beam across their forehead and in front of the horns. To this beam the plow is attached, all the force being applied by the head instead of the shoulder.

The plow is a crooked stick or branch of a tree, the point faced with iron. Peruvians contend that they do not need to plow more than two or three inches deep, simply enough to loosen the soil so as to enable the seed to take root. The water used in irrigating is said to be rich in plant food, further obviating the necessity of deep plowing. Improved plows suitable for this country are now manufactured in Europe and the United States, but they are very different from the plows used by an American farmer. They are light and small, having a close resemblance to the original crooked stick.

Every Peruvian plow has but one handle. The driver carries in one hand a huge rod, twelve or fifteen feet in length, with which to touch up his team, and he manages the plow with the other hand. The irrigating ditches must then be connected with the canal which brings the water from the river and which traverse the field at a distance of three or four feet apart and six to eight inches deep.

They are so arranged that the whole field can be instantly flooded by turning on the water, and every hill of corn or potatoes or sugar cane will be thoroughly soaked. Of course, the fields must slope in the right direction, and it nature has so made it the level is reduced sufficiently before it is plowed.—*N. Y. Journal*.

CREME-DE-LA-CREME.

Where the Parallel Between Cream and Aristocracy Ends.

That person who first denominated the so-called upper classes of society the cream, could not have possessed a very logical mind, or he would have perceived that his comparison did not go very far. True, the cream and the aristocracy are both on top, but there the parallel ends. The former is really composed of the best elements of the milk, while the latter is somewhat notorious for producing the poorest specimens of humanity, physically, mentally and morally, to be found except, perhaps, in the very lowest strata of society.

Poverty draws and starves the higher faculties of one part of the human race, and luxury and wealth those of another part. Wholesome food, wholesome exercise and wholesome effort develop more fully these facilities in the large middle class, and from that spring, usually, the giants of the race. The so-called cream of society needs to remember that, like the cream on the milk, it originally constituted simply a portion of the whole; hence, when in the course of natural events it finds itself on the top, let it retain some kindly feeling for those elements with which it was so recently allied, and with which any undue disturbance may again cause it to mingle.—*Christian at Work*.

Derivation of Cravat.
Cravat is a corruption of cravat or crout. It was introduced into France by some French officers on their return from Germany in 1626, says the *Dry Goods Chronicle*. The Croats, who guarded the Turkish frontier of Austria, and acted as scouts on the flanks of the army, wore linen round their necks, tied in front, and the officers wore muslin or silk. When France organized a regiment on the model of the Croats these linen neckcloths were imitated, and the regiment was called "The Royal Cravat."

Scrofula

In Its Worst Form—"White Swelling" Cured.

The remarkable effect of Hood's Sarsaparilla in the following case illustrates the power of this medicine over all blood diseases:

"My son, 7 years old, had a white swelling come on his right leg below the knee, which contracted the muscles so that his leg was drawn up at right angles. Physicians lanced the swelling, which discharged freely, but did not help him materially. I considered him."

A Confirmed Cripple.
I was about to take him to Cincinnati for an operation, expecting his leg would have to be taken off, and began giving him Hood's Sarsaparilla in order to get up his strength. The medicine woke up his appetite, and soon pieces of bone were discharged from the sore. We continued with Hood's Sarsaparilla, as it seemed to be doing him so much good, and the discharge from the sore decreased, the swelling went down, the leg straightened out, and in a few months he had perfect use of his leg. He is now apparently as well as ever." JOHN L. MCMURRAY, Notary Public, Ravenswood, W. Va.

The Ladies Delighted.

The pleasant effect and the perfect safety with which ladies may use the liquid fruit laxative, Syrup of Figs, under all conditions make it their favorite remedy. It is pleasant to the eye and to the taste, gentle, yet effective in action on the kidneys, liver and bowels.

Reminiscence of the Johnstown Flood.

Rev. H. L. Chapman, pastor of the M. E. Church, Johnstown, Pa., says: "Soon after the great flood, at a time when diarrhoea was quite prevalent I received a box of six dozen Chamberlain's Colic, Cholera and Diarrhoea Remedy sent me by the proprietors, at the suggestion of Hon. Wesley B. Head of Des Moines. As soon as it became known that I had the medicine for free distribution there began a great run on it, which continued until it was about all gone. Every one, so far as I heard from them, testified to its virtues declaring it the best medicine for the purpose they had ever used. Those who got it stated it around with their neighbors so that I am confident your generosity in sending it was productive of great good. We used some of it ourselves and found it not only an excellent medicine for diarrhoea but for all kinds of pain and uneasiness in the stomach and bowels. It has been regarded as the best medicine known here for the diseases it is recommended for. In view of your sending such a large quantity for free distribution among poor people, I think you are entitled to this testimonial in its favor. For sale by Shoemaker & Co.

Remarkable Rescue.

Mrs. Michael Curtin, Plainfield, Ill. makes the statement that she caught cold which settled on her lungs; she was treated for a month by her family physician, but grew worse. He told her she was a hopeless victim of consumption and that no medicine could cure her. Her druggist suggested Dr. King's New Discovery for consumption; she bought a bottle and to her delight found herself benefited from first dose. She continued its use and after taking ten bottles, found herself sound and well, now does her own housework and is as well as she ever was—Free trial bottles of this Great Discovery at W. F. Pinner's Drug Store, large bottles 50c, and 25c.

Everything goes Wrong.

In the bodily mechanism when the liver gets out of order. Constipation, dyspepsia, contamination of the blood, imperfect assimilation are certain to ensue. But it is easy to prevent these consequences, and remove their cause by the use of Hostetter's Stomach Bitters, which stimulates the primary organs and regulates its action. The dirt which is accumulated in the bile beneath the ribs and through the shoulder blades, the nausea, headache, yellowness of the skin, forced look of the tongue and sour odor of the breath, which characterize liver complaint. Sound digestion and regular habit of body are essential to the health of the body which imparts a degree of vigor to the body which is the best guarantee of safety from malarial epidemics. Nerve weakness and overindulgence in food, and it improves both appetite and sleep.

Happy Moonshiners.

Wm Timmons, Postmaster of Idaho, Ind., writes: "Electric Bitters has done more for me than all other medicines combined, for that bad feeling arising from Kidney and Liver trouble." John Leslie, farmer and stockman of same place, says: "Find it Electric Bitter to be the best Liver and Kidney medicine, made me feel like a new man." J. W. Gardner, hardware merchant, same town, says: "Electric Bitters is just the thing for a man who is all run down and don't care whether he lives or dies; he found new strength, good appetite and felt just like he had a new lease on life. Only 50c a bottle at Wm. Pinner's Drug Store."

It is guaranteed to give perfect satisfaction, or money refunded. Price 25 cents per box. For sale by Wm. Pinner's Drug Store.

INDEPENDENCE LAKE.

A Pleasant Resort for Tourists and Campers-Out. INDEPENDENCE, Aug. 13, 1890. Those who contemplate an "outing," either for pleasure or health, can find no better place to visit than Independence lake, one of the most beautiful bodies of crystal water extant, surrounded by lofty, snow-capped mountains, bordered with heavy timber, and this is the best part of the season. The ride to the lake is a most enjoyable one, and at once conveys to the mind the vast timber resources of the country.

Arriving at the lake, tourists will find one of the very best mountain hotels, under the supervision of Fonda & Co., and in personal charge of Dr. and Mrs. Fonda, who are attentive to the wants of all. If there is any one thing above another to commend this resort to the attention of guests, it is the table of well-cooked edibles, far surpassing most places of its kind. The rooms are large, light and airy. Here will also be found plenty of good, safe boats and fishing tackle, and plenty of fish to be caught. No lake in the Sierras furnishes better sport where the fishing season lasts so long.

TONS OF FISH.

Have this season been taken out of this lake and shipped to California and Nevada, and the fish appear to take the hook as lively as ever. One would suppose this great quantity would deplete the water of the finny tribe. On the contrary, they appear more plentiful than ever. Hunting is also very good around the lake. Grouse, quail, deer and bear are plentiful.

A BEAR KILLED.

Last week a young man named Woodworth, of Reno, after a lively chase killed a cinnamon bear weighing about 300 pounds, not more than half a mile from the hotel. There are a number of campers on the shores of the lake from various sections, and the number was augmented to-day by the

ARRIVAL OF REV. WM. LUCAS.

And party, who got caught in a thunder storm and arrived at the lake just in time to see the last drops of moisture descend from the clouds.

SNOW IN THE MOUNTAINS.

Last winter 62 feet of snow fell here, and much of it is now visible on the surrounding mountains, there being banks some thirty feet deep and more, which will be a good beginning for the coming winter.

The lake is now at high-water mark. About 10 o'clock each evening the gates are hoisted, and the immense volume of water is used to drive sawlogs down the Little Truckee. At 6 each morning the floodgates are again partly closed. From present appearances the season of 1891 will be one of plenty of water.

LANDS FOR NEVADA.

The Work of Our Land Agent at Washington.

The Secretary of the Interior has approved the cession of a list of lands to Nevada containing 116,000 acres. Land Agent Frohman says that the day preceding his departure from Washington in June last he secured the certification of this list by the Commissioner of the General Land Office, since which time it has been in the hands of the Secretary. Since his appointment in February, 1889, Mr. Frohman has had over 496,000 acres of the 2,000,000-acre grant approved to the State. During the period from the time of this grant in 1880 to his appointment the total number of acres approved to Nevada was 229,528.40, making in all about 826,000 acres. Mr. Frohman says he has been informed that another list comprising from 200,000 to 300,000 acres will soon be ready for approval.

The Hop Crop of 1890.

The Sonoma (Cal.) Democrat says: While the hop crop of the county will not be as large this season as last, the harvest is destined to be one of the most profitable for years. The hops are of a better quality and larger in their development, while the foliage is scanty. Last season the crop of the county was about 6,700 bales; this year will not be over 6,000. Eighteen cents is the price offered at present, but the growers seem to think that twenty cents will be paid before the crop is harvested.

A Book that Sells.

The prohibition by the Postoffice Department of the mailing of Count Tolstoi's "Kreutzer Sonata" has even induced the New York street boys to push the sale, which is already brisk at the news-stands.

If your kidneys are inactive, you will feel and look wretched, even in the most cheerful society, and melancholy on the jolliest occasions. Dr. J. H. McLean's Liver and Kidney Balm will set you right again. 50c per bottle.

When you are constipated, with loss of appetite, headache, take one of Dr. J. H. McLean's Little Liver and Kidney Pills. They are pleasant to take and will cure you. 25 cents a trial.

WADSWORTH DELEGATES.

The Republicans Meet and Select Delegates.

Last evening the Republicans of Wadsworth, in mass meeting assembled, selected the following names to be voted for as delegates to the State and County Conventions:

State—J. H. Whited, W. C. Taylor, B. F. Dolan.

County—T. G. Herman, William Macpherson, N. A. Hummel, William Donaldson, J. H. Whited, G. W. Sawyer, E. Proctor, W. C. Taylor, E. T. Lothrop, J. C. Erb, N. D. Mussey, S. Arnsfeldt, H. M. Johnson, T. H. Bastian, A. W. Macpherson, C. H. Lewis, T. W. Fitzgerald, J. R. Forrest, E. Fowler.

Battlefield of Guilford.

The spot whereon General Nathaniel Greene won the important battle of Guilford is soon to be redeemed from the unkept condition into which it has lately been permitted to fall. A syndicate of Northern capitalists have, it is understood, decided to erect upon it an enormous summer hotel and equip attractive grounds for a summer resort, which will be rendered more attractive still by the presence of numerous mineral springs of value for medicinal purposes.

PERSONAL.

Forty-Five Years Bondage.

Gen. For forty-five years I have been afflicted with blood poison, liver, rheumatic difficulties. Part of the time confined to my bed. My blood was badly diseased. Six bottles of Hibbard's Rheumatic Syrup did me more good than all the other medicines I have taken. My friends have used it and in every case it has proved a wonderful remedy. I have known of some wonderful cures of dropsy and rheumatism. Hibbard's Rheumatic Syrup and Plasters are remedies of great merit. I believe they have equal in the cure of rheumatism and blood diseases.

Dr. H. RICHARD, Druggist, Mitchellville, Iowa. The Spring is the time to take Hibbard's Rheumatic Syrup for the blood. Where I will be pleased to see all in want of my line of goods. A. NELSON.

Spring Fever.

At this season of the year the most vigorous and healthy people often have a feeling of weariness tired and worn out, without ambition to do anything, and many break out in pimples and sores. What you require is a mild tonic medicine that will act gently on the liver and blood, and for this nothing equals Dr. Gunn's Improved Liver Pills. They give an activity to the liver, purify the blood and by their mild tonic action, new vitality and strength to the entire system. Sold at 25 cents a box by S. J. Hodgkinson.

Advice to Mothers.

Mrs. WINSLOW'S SOOTHING SYRUP should always be used for children teething. It soothes the child, cures the mother's pain, cures wind colic, and is the best remedy for diarrhoea. Twenty-five cents a bottle.

"A GROWL."

MR. EDITOR: Although my taxes are small, yet they are as burdensome to me as if I paid much more. And as a taxpayer, I feel that I have a right to criticize those extravagances that are factors in the creation of high taxes. I have in my mind the county hospital. No sooner does the impecunious citizen become broken down and debilitated, than he rushes off to the hospital. Even persistent dyspepsia and constipation are getting to be excuses for admission. Hence, allow me space to enter my feeble protest against further continuance of this pernicious practice. It costs too many hard dollars for the treatment of these unfortunate, and it is high time that they should know that they can save the county that expense, by the judicious use of a few bottles of Joy's Vegetable Sarsaparilla—a remedy that within my observation is a sovereign cure for those too common disorders. If they won't take it they ought to be compelled to by some law that would meet the case. Under the circumstances a full hospital is inexcusable,—hence this growl. A CITIZEN.

A Sure Cure for Piles.

Itching Piles are known by moisture, like perspiration causing intense itching when warm.
